The accompanying notes to the unaudited condensed interim consolidated financial statements are an integral part of these statements.

1. Nature of operations and going concern

Kerr Mines Inc. (“Kerr” or the “Company”) is incorporated under the laws of the Province of Ontario. The principal business activities are directed towards exploring and developing the Copperstone gold property ("Copperstone") in La Paz County, Arizona, United States. To date, the Company has not earned significant revenue as all properties are pre-production.

The Company is listed on the Toronto Stock Exchange, trading under the symbol KER. The Company's corporate office and principal place of business is located at 18 King Street East, Suite 902, Toronto, Ontario, M5C 1C4, Canada.

As at March 31, 2020, the Company had working capital of $1,294,210 (June 30, 2019 – working capital of $165,244). The Company has incurred losses in previous periods and has not yet achieved profitable operations, with a current loss of $2,985,119 for nine months ended March 31, 2020 (nine months ended March 31, 2019 - loss of $5,689,196) and has an accumulated deficit of $160,295,410 as at March 31, 2020, (June 30, 2019 - $157,310,291), and expects to incur future losses in the development of its business and requires additional financing to continue to be able to operate, retain rights to its properties and carry out exploration and development of its properties, all of which casts significant doubt about the Company’s ability to continue as a going concern.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

These unaudited condensed interim consolidated financial statements have been prepared on a going-concern basis and do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and consolidated statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material. While the Company expects to be able to obtain sufficient financing to continue as a going concern, it is not possible to predict whether financing efforts will be successful.

As at March 31, 2020, the Company is in the process of advancing the Copperstone Mine project to production. The continued operations of the Company and the amounts recoverable on the properties are dependent upon the ability of the Company to obtain the financing to continue the Company’s current focus of maximizing Copperstone’s potential by defining and expanding current resources and strengthening the mine’s economics leading to project financing and a production decision.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS's issued and outstanding as of June 15, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended June 30, 2019, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending June 30, 2020 could result in restatement of these unaudited condensed interim consolidated financial statements.

New standards adopted

<u>Leases ("IFRS 16")</u>

IFRS 16 was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognises a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognise the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. The application of the new standard had no impact on the unaudited condensed interim consolidated financial statements as at March 31, 2020.

New standards not yet adopted and interpretations issued but not yet effective

IFRS 10 - Consolidated Financial Statements ("IFRS 10"). IFRS 10 and IAS 28 – Investments in Associates and Joint Ventures ("IAS 28") were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined, however early adoption is permitted.

(Expressed in Canadian Dollars)

3. Restricted investments

	As at March 31, 2020	As at June 30, 2019
Restricted investments		
Short-term cashable account [(1)]	**$ 1,157,634**	$ 1,067,876
Total	**$ 1,157,634**	$ 1,067,876

(1) Pursuant to the term of the surety bond disclosed in (note 20) the Company provided cash collateral of $1,157,634 or US$816,000 (June 30, 2019 - $1,067,876 or US$816,000) which is held with the Bank of New York in the name of the Company to cover a portion of the decommission liabilities related to Copperstone property (note 7).

7. Mineral properties

The Company is engaged in exploring and developing the Copperstone gold property in La Paz County, Arizona, United States.

The Company holds a 100% leasehold interest in the Copperstone Project. The landlord is The Patch Living Trust. The current lease expires June 12, 2026. The lease is renewable for one or more ten-year terms at the Company's option under the same terms and conditions. The Company is obligated to pay for all permitting and state lease bonding, insurance, taxes, and is also required to pay an annual lease payment of US$40,000 to the Patch Living Trust. In addition, the Company is obligated to pay a quarterly production gross royalty equal to 1.5% of the disposition of Metal Products by the Company. Total annual production gross royalty obligations for the Copperstone Property total 6%. Of the annual gross production royalty, 4.5% is payable to Trans Oceanic Minerals Company Ltd., a company controlled by Fahad Al Tamimi, the Company's Chairman of the Board of Directors, and 1.5% payable to the Patch Living Trust.

All required property payments were made with respect to the Copperstone Project as of March 31, 2020, and all claims are in good standing. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements. The Company's ability to retain the rights to certain of its properties is dependent upon the Company continuing to make option payments and meet other commitments.

(Expressed in Canadian Dollars)

8. Accounts payable and accrued liabilities

	As at March 31, 2020	As at June 30, 2019
Trade payables	**$ 421,516**	$ 319,942

Balance, March 31, 2020	**$ 4,435,501**	**$ 2,457,503**	**$ 6,893,004**

10. Promissory notes payable (continued)

1) The promissory note with principal of $3,609,763 is payable to Braydon Capital Corporation ("Braydon"), a company controlled by Claudio Ciavarella, an Officer, a director and shareholder of Kerr. The promissory note bears interest rate of 8% beginning in September 2017 and has a maturity date of August 22, 2020. During the nine months ended March 31, 2020, the maturity date was extended to January 20, 2021 and then again to August 22, 2021.
2) Braydon Capital Corporation and Trans Oceanic Minerals Corporation Ltd. each provided promissory notes of $1,000,000 to the Company, bearing interest at 8% beginning in September 2017 and having a maturity date of August 22, 2020. The notes are secured by a general security agreement in the Copperstone Mine. During the nine months ended March 31, 2020, the maturity date was extended to January 20, 2021 and then again to August 22, 2021.

11. Convertible promissory notes payable

Kerr debenture I

The Company has a convertible promissory note in the amount of US$2,054,570 ("Kerr debenture I") payable to Trans Oceanic Minerals Corporation Ltd. The Kerr Debenture I had a maturity date of August 22, 2019, interest rate of 8% per annum, compounded monthly and payable quarterly. The holder has the right to convert any part of the amount owing into common shares of the Company at a conversion price of $0.90 per common share. On November 28, 2018, the convertible promissory note was amended by extending the maturity date from August 22, 2019 to August 22, 2020. During the nine months ended March 31, 2020, the maturity date was extended to January 20, 2021 and then again to August 22, 2021.

Kerr debenture II

The Company has a convertible promissory note in the amount of US$1,000,000 ("Kerr debenture II") payable to Trans Oceanic Minerals Corporation Ltd. The Kerr Debenture II had a maturity date of August 22, 2019, interest rate of 8% per annum, compounded monthly, payable quarterly. The interest will not accrue and will not payable until August 22, 2017. The holder has the right to convert any part of the amount owing into common shares of the Company at a conversion price of $0.065 per common share.

The conversion feature of a convertible financial instrument is presumed to be classified as a derivative financial liability unless it meets all the criteria to recognize as equity instrument under IAS 32 - Financial Instruments: Presentation. One of criteria is that the conversion option exchanges a fixed amount of shares for a fixed amount of cash ("fixed for fixed"). Since the convertible promissory note payables are denominated in US dollar, but are convertible into common shares based upon a Canadian dollar conversion rate, therefore the fixed for fixed criteria is not met. As such, the conversion feature was classified as derivative financial liabilities instead of an equity instrument. The Company separated the convertible promissory notes payable into two components, with the debentures carried at amortized cost, and the conversion feature carried at fair value.

On November 28, 2018, the Kerr debenture I and II convertible promissory notes was amended by extending the maturity date from August 22, 2019 to August 22, 2020. As a result, the Company extinguished these two convertible promissory notes when they were amended on November 28, 2018 and treated them as two new convertible promissory notes with a maturity date of August 22, 2020. The Company calculated the fair value of the conversion feature and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the conversion feature carried at fair value.

11. Convertible promissory notes payable (continued)

Kerr debenture II (continued)

During the nine months ended March 31, 2020, the maturity date was extended to January 20, 2021 and then again to August 22, 2021. As a result, the Company treated them as two new convertible promissory notes with a new maturity date of August 22, 2021. The Company calculated the fair value of the conversion feature and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the conversion feature carried at fair value.

Sprott convertible note

On November 6, 2018, the Company executed a term sheet with Sprott Private Resource Lending (Collector) LP (“Sprott”), setting out the indicative terms upon which Sprott is prepared, subject to meeting prescribed project milestones including satisfactory due diligence, to provide up to US$25 million of senior secured project financing (the “Financing Package”) to fund the development and production of gold at the Copperstone Mine.

The Highlights of the Financing Package include:

- US$2 million senior redeemable convertible note (the "Note") with an 9% coupon repayable 18 months after closing (received of which US$500,000 was converted at $0.16 for 4,130,313 commons shares);
- US$2 million senior gold loan facility repayable 18 months after closing (target completion on or about June 30, 2019 (“Phase 2”));
- US$21 million senior project loan facility repayable 48 months after closing;
- The Company will raise US$2 million in equity as working capital.

On November 28, 2018, the Company closed the US$2 million (CDN$2.7 million) Sprott Note financing. The Sprott Note is convertible into Common Shares at any time prior to maturity at a conversion price of CDN$0.16 per share. The Corporation can redeem the Sprott Note at any time by paying the outstanding principal amount in cash, or with the agreement of the holder, in common shares of the Corporation, together with interest payable to maturity. In connection with the Sprott Note, the Corporation issued to Sprott one million common share purchase warrants entitling the holder to purchase one common share at a price of CDN$0.15 until November 27, 2021, subject to acceleration.

In connection with the Sprott Note, on November 28, 2018 the Company completed a non-brokered private placement of 21,239,409 units at a price of $0.14 per unit for gross proceeds of $2,973,517. The offering, initially announced on November 9, 2018 and targeting proceeds of $2.5 million, was oversubscribed.

The Company remains in discussion with Sprott regarding the balance of the Sprott Project Financing Package as it continues with its Resource Expansion Program and project optimization studies regarding the Copperstone Project. Any further financing from Sprott under the Sprott Project Financing Package or otherwise will be subject to the Company meeting prescribed project milestones set forth in the term sheet and additional conditions that may be prescribed if the financing moves forward.

11. Convertible promissory notes payable (continued)

Sprott convertible note (continued)

Resulting from the Company's internal optimization study which reflects a further reduction in the required project capital for the re-start of the Copperstone mine the Company continues to consider other potential sources of project financing that would further enhance project economics by reducing the effective cost of capital.

Since the Sprott note is denominated in US dollar but is convertible into common shares based upon a Canadian dollar conversion rate, the fixed for fixed criteria is not met. As such, the conversion feature was classified as a financial derivative liability instead of an equity instrument. The warrants met the fixed for fixed criteria and was classified as an equity instrument. On the initial recognition, the face value of $2,660,400 were separated into three components. The Company calculated the fair value of the liability component as $2,553,722 using a discount rate of 12%, and the residual amount of $106,678 being the fair value of the equity (warrants). The fair value of the financial derivative liability (conversion feature) was estimated at $129,895 by using Black-Scholes pricing model with the assumptions; dividend yield 0%; risk free interest 2.19%; volatility 103.25% and an expected life of 18 months.

Transaction costs of $151,148 were allocated to the debt components, equity components and derivative liability components in proportion to the allocation of the proceeds on initial recognition. Transaction cost $6,061 was allocated to equity component, and was accounted for as a deduction from equity; $7,380 was allocated to the derivative financial liability component and was expensed; and $137,701 was allocated to the debt component and was offset against the carrying amount of the debt and included in the determination of the accretion expenses. $163,375 accretion expenses were included in finance charges.

On March 23, 2020, the Company completed an additional US$500,000 under its current US$1.5 million senior secured convertible note. The Sprott Note bears interest at a rate of 9% per annum payable semi-annually. The maturity date of the Sprott Note has also been extended to May 31, 2021. The new US$500,000 advance under the Sprott Note is convertible into Common Shares at any time prior to maturity at a conversion price of CDN$0.13 per share. In connection with the Sprott Note and the extension, the Company issued to Sprott an additional 650,000 common share purchase warrants (the "Sprott Warrants"). Each Sprott Warrant entitles the holder to purchase one Common Share at a price of $0.13 until November 28, 2023. The warrants met the fixed for fixed criteria and was classified as an equity instrument and the residual amount of $37,808 being the fair value of the equity (warrants). The fair value of the financial derivative liability (conversion feature) was estimated at $26 by using Black-Scholes pricing model with the assumptions; dividend yield 0%; risk free interest 0.56%; volatility 84.12% and an expected life of 14 months. Transaction costs of $62,000 were recorded.

The Company and Sprott have also agreed to extend the expiry date of the 1,000,000 common share purchase warrants issued to Sprott on November 28, 2018 in connection with the issuance of the Sprott Note from November 28, 2021 to November 28, 2023. The extension will become effective on April 6, 2020.

(Expressed in Canadian Dollars)

11. Convertible promissory notes payable (continued)

The following table summarizes the debt component:

	Kerr debenture I	Kerr debenture II	Sprott note I	Sprott note II	Total

Components of derivative financial liabilities:				
Current	$ -	$ -	$ -	$ -
Long term	$ 6,174	$ 104,555	$ 31,772	$ 142,501
Total Balance	**$ 6,174**	**$ 104,555**	**$ 31,772**	**$ 142,501**

13. Decommissioning liabilities

The Company's decommissioning liabilities relates to the cost of removing and restoring of the McGarry property in the Township of McGarry and the Copperstone Mine in La Paz County, Arizona. Significant reclamation and closure activities include land rehabilitation, demolition of buildings and mine facilities, ongoing care and maintenance and other costs. This estimate depends on the development of environmentally acceptable mine closure plans.

A continuity for asset retirement obligations is as follows:

Asset Retirement Obligation	Copperstone	Total
Balance, June 30, 2018	**$ 2,174,079**	**$ 2,174,079**
Accretion expense for the year	30,792	30,792
Foreign exchange differences	(13,722)	(13,722)
Adjustment	80,073	80,073
Balance, June 30, 2019	**2,271,222**	**2,271,222**
Accretion expense for the year	34,097	34,097
Foreign exchange differences	124,674	124,674
Adjustment	113,728	113,728
Balance, March 31, 2020	**$ 2,543,721**	**$ 2,543,721**

<u>Copperstone</u>:

The mine closure provision liability is based upon numerous estimates and assumptions, as follows:

i) Total undiscounted amount of future retirement costs was estimated to be US$1,734,214 (Cdn$2,543,721) to which the Company has provided cash collateral as disclosed in (note 20).
ii) Risk-free rate at 1.52%.
iii) Expected timing of cash outflows required to settle the obligation is for the full amount to be paid in 2022.
iv) Inflation over the period up to 2022 was estimated to be 0.64% per annum.

(Expressed in Canadian Dollars)

14. Share capital

a) Authorized share capital

The authorized share capital consists of an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

b) Common shares issued

	Number of common shares	Amount
Balance, June 30, 2018	**255,785,168**	**$139,366,531**
Common shares issued in private placement (i)	21,239,409	2,973,518
Value allocated to warrant (i)	-	(869,826)
Transaction costs	-	(40,923)
Balance, March 31, 2019	**277,024,577**	**$141,429,300**
Balance, June 30, 2019	**280,374,577**	**$141,743,418**
Shares issued for interest (ii)	724,177	137,594
Conversion of promissory note (iii)	4,130,313	908,669
Common shares issued in private placement (iv)	22,913,486	3,207,888
Value allocated to warrant (iv)	-	(714,964)
Share issue cost	-	(77,034)
Options exercised	2,200,000	492,800
Balance, March 31, 2020	**310,342,553**	**$145,698,371**

(i) On November 27, 2018, the Company closed a non-brokered private placement, by issuing 21,239,409 units at a price of $0.14 per unit, for gross proceeds of $2,973,518. Each unit is comprised of one common share and one common share purchase warrant. Each warrant entitles the holder thereof to acquire a common share at a price of $0.21 per share for a period of 24 months from the date of issuance, provided, that if, at any time the common shares trade at a volume weighted average trading price of $0.30, or greater, per share for a period of 20 consecutive trading days. The Company may accelerate the expiry date of the warrants by giving notice to the holders thereof and in such case the warrants will expire on the 30th day after the date on which such notice is given by the Company. The fair value of the 21,239,409 share purchase warrants was estimated at $869,826 using the Black-Scholes pricing model with the following assumptions: dividend yield 0%; risk free interest 2.19%; volatility 103.25% and an expected life of 24 months.

(ii) On July 2, 2019, the Company issued 724,177 shares to Sprott for semi-annually interest payment.

(iii) On August 6, 2019, Sprott elected to convert an amount of US$500,000 into 4,130,313 common shares of the Company.

(Expressed in Canadian Dollars)

14. Share capital (continued)

b) Common shares issued (continued)

(iv) On February 28, 2020, the Company closed a private placement, by issuing 22,913,486 units of the Company (the "Units") at a price of $0.14 per Unit for total gross proceeds of $3,207,888. Each unit is comprised of one common share and one common share purchase warrant. Each warrant entitles the holder thereof to acquire a common share at a price of $0.21 per share for a period of 24 months from the date of issuance, provided, that if, at any time the common shares trade at a volume weighted average trading price of $0.30, or greater, per share for a period of 20 consecutive trading days. The Company may accelerate the expiry date of the warrants by giving notice to the holders thereof and in such case the warrants will expire on the 30th day after the date on which such notice is given by the Company. The fair value of the 22,913,486 share purchase warrants was estimated at $714,964 using the Black-Scholes pricing model with the following assumptions: dividend yield 0%; risk free interest 1.14%; volatility 77.29% and an expected life of 24 months. In connection with the private placement, the Company paid finder fees totaling $63,474 to certain eligible persons and incurred legal and other cost of $13,560.

15. Stock options

The purpose of the Company's stock option plan is to provide incentives to directors, officers, employees and consultants of the Company. The maximum number of common shares reserved for issuance upon exercise of the options is 10% of issued and outstanding shares. The Board of Directors may designate the recipients of options and determine the number of common shares covered by each option, its exercise price (which may not be less than closing market price of the common shares on the trading day prior to the grant) and its expiry date. The term of the options shall not exceed five years from the date of grant.

Option pricing models require the input of highly subjective assumptions noted above. Changes in the subjective input assumptions can materially affect the fair value estimate.

The following table reflects the continuity of stock options for the nine months ended March 31, 2020 and March 31, 2019:

	Number of stock options	Weighted average exercise price
Balance, June 30, 2018	**9,880,000**	**$ 0.220**
Issued (i) (ii)	1,000,000	0.140
Expired	(880,000)	(0.220)
Balance, March 31, 2019	**10,000,000**	**$ 0.220**
Balance, June 30, 2019	**13,000,000**	**$ 0.200**
Issued (iii)	2,200,000	0.135
Exercised	(2,200,000)	(0.125)
Balance, March 31, 2020	**13,000,000**	**$ 0.200**

(Expressed in Canadian Dollars)

15. Stock options (continued)

(i) On November 28, 2018, the Company issued 500,000 stock options to an employee of the Company with an exercise price of $0.13. The options vest 200,000 immediately, 150,000 on May 24, 2019, and 150,000 on May 24 2020. The grant date fair value of $44,239 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of $0.12; 103.25% expected volatility; risk free interest rate of 2.19%; and an expected dividend yield of 0%. For the three and nine months ended March 31, 2020, $2,225 and $6,723, respectively was expensed to option-based payments (three and nine months ended March 31, 2019 - $24,000)

(ii) On January 29, 2019, the Company issued 500,000 stock options to a director of the Company with an exercise price of $0.14. The options vest immediately. The grant date fair value of $53,248 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of $0.14; 102.74% expected volatility; risk free interest rate of 1.84%; and an expected dividend yield of 0%. For the three and nine months ended March 31, 2020, $nil was expensed to option-based payments (three and nine months ended March 31, 2019 - $53,248)

(iii) On November 5, 2019, the Company issued 2,200,000 stock options to a director and officer of the Company with an exercise price of $0.135. The options vest immediately. The fair value of these options at the date of grant of $243,800 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of $0.135; 118% expected volatility; risk free interest rate of 1.59%; and an expected dividend yield of 0%. For the three and nine months ended March 31, 2020, $243,800 was expensed to option-based payments (three and nine months ended March 31, 2019 - $nil)

The following table reflects the actual stock options issued and outstanding as of March 31, 2020:

Expiry date	Exercise price ($)	Weighted average remaining contractual life (years)	Number of options outstanding	Number of options vested (exercisable)
May 2, 2022	0.19	2.09	4,000,000	4,000,000
August 23, 2022	0.22	2.40	3,000,000	3,000,000
January 12, 2023	0.30	2.79	2,000,000	2,000,000
November 28, 2023	0.13	3.66	500,000	350,000
January 29, 2024	0.14	3.83	500,000	500,000
April 15, 2024	0.125	4.04	800,000	800,000
November 5, 2024	0.135	4.60	2,200,000	2,200,000
	0.20	**2.94**	**13,000,000**	**12,850,000**

(Expressed in Canadian Dollars)

16. Warrants

The following table reflects the continuity of warrants for the nine months ended March 31, 2020 and March 31, 2019:

	Number of warrants		Amount
Balance, June 30, 2018	**22,222,217**	**$**	**0.27**
Issued (note 14(b)(i))	21,239,409		0.21
Issued (note 11)	1,000,000		0.16
Balance, March 31, 2019	**44,461,626**	**$**	**0.24**
Balance, June 30, 2019	**29,991,357**	**$**	**0.22**
Issued (note 14(b)(iii)(iv))	22,913,486		0.21
Issued (note 11)	650,000		0.13
Expired	(4,401,948)		(0.27)
Balance, March 31, 2020	**49,152,895**	**$**	**0.21**

The following table reflects the actual warrants issued as of March 31, 2020:

Number of warrants outstanding	Grant date fair value ($)	Exercise price ($)	Expiry date
21,239,409	869,826	0.21	November 27, 2020 (1)
3,350,000	139,682	0.21	April 15, 2021 (1)

22. Subsequent events

a) Subsequent to the three and nine months ended March 31, 2020, the Company issued 8,700,000 stock options to directors, officer, employees and consultants of the Company at an exercise price of $0.13 for 5 years. The options vest immediately.

b) Subsequent March 31, 2020, the Company announced on April 23, 2020 its plans for the first phase of its 2020 resource and reserve expansion program consisting of up to 5,000 meters of drilling at the Copperstone Mine located in Arizona, USA which was targeted to commence in second quarter of 2020. The planning of the first phase of the program and contract negotiations for drilling contractors is now complete.

Timing for the commencement of the drilling program has now been delayed in light of delays resulting from COVID-19 and recent developments resulting from the remediation of a localized area of the pit high-wall and restoration of permanent power at the Copperstone Mine underground workings. The high-wall remediation impacted certain infrastructure and equipment nearby one of the portals to the underground workings inclusive of permanent power, which has now been fully restored.

The first phase of drilling is now targeted to commence in Q3 once we are in receipt of the final amount owing from the Company’s insurers. To date, the Company has received partial recovery of costs incurred and is working with the insurance company regarding the current outstanding balance.
