Sabre Gold Mines Corp.

Notes to the Condensed Consolidated Financial Statements Three and Nine Months Ended September 30, 2023 and 2022 (Expressed in Canadian Dollars) - Unaudited

1. Nature of operations and going concern

Sabre Gold Mines Corp. ("Sabre Gold" or the "Company") is incorporated under the laws of Canada. The principal business activities are directed towards exploring and developing the Copperstone Mine ("Copperstone") in La Paz County, Arizona, United States. To date, the Company has not earned significant revenue as all properties are pre-production.

The Company is listed on the Toronto Stock Exchange, trading under the symbol SGLD. The Company's corporate office and principal place of business is located at 200 Burrard Street, Suite 250, Vancouver, British Columbia, V6C 3L6, Canada.

As at September 30, 2023, the Company had working capital of \$11,070,574, (December 31, 2022 - excess of current liabilities over current assets of \$(17,356,102)). The Company has incurred losses in previous periods and has not yet achieved profitable operations, with current income of \$383,051 for the nine months ended September 30, 2023 (September 30, 2022 - loss of \$7,617,538) and expects to incur future losses in the development of its business and requires additional financing to continue to be able to operate, retain rights to its properties and carry out exploration and development of its properties, all of which casts significant doubt about the Company's ability to continue as a going concern.

These condensed interim consolidated financial statements have been prepared on a going-concern basis and do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and consolidated statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material. While the Company expects to be able to obtain sufficient financing to continue as a going concern, it is not possible to predict whether financing efforts will be successful.

As at September 30, 2023, the Company is an emerging North American gold producer advancing the restart of production at its 100-per-cent owned, fully permitted past-producing Copperstone Mine, located in mining-friendly Arizona. The Company's current focus is on maximizing the Copperstone Mine's potential by defining and expanding current resources and further optimizing the mine's economics for the purpose of the restart of production.

2. Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS's issued and outstanding as of November 9, 2023, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2022, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2023 could result in restatement of these unaudited condensed interim consolidated financial statements.

New and revised standards and interpretations

The following accounting standards and implementations are effective for future periods.

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date.

These amendments are effective for reporting periods beginning on or after January 1, 2023.

Restricted cash ⁽²⁾	11,500	11,500
	\$ 849,119	\$ 1,479,250

(1) Pursuant to the term of the surety bond disclosed in (note 20) the Company provided cash collateral of \$837,619 or US\$619,540 (December 31, 2022 - \$1,467,750 or US\$1,083,729) which is held with Intact Insurance in the name of the Company to cover a portion of the decommissioning liabilities (note 14). The decrease in the restricted cash is due to the reimbursement of the cash collateral as a result of selling Golden Predator to Victoria Gold.

(2) This is a GIC held on deposit with a major Canadian financial institution as security for the corporate credit card.

4. Accounts receivable and prepaid expenses

	As at September 30, 2023	As at December 31, 2022
Prepaid expenses	\$ 54,664	\$ 42,696

The Company is engaged in exploring and developing the Copperstone Gold Mine in La Paz County, Arizona, United States.

The Brewery Creek, Grew Creek and Gold Dome mineral properties were transferred as part of the sale of Golden Predator to Victoria Gold (note 21). The Brewery Creek Project was in the exploration and evaluation stage, the Grew Creek property was subject to an annual \$25,000 advance royalty and the Gold Dome property consisted of multiple intrusion-related gold targets over 170 km² land package.

(a) Copperstone Gold Mine, Arizona

The Company holds a 100% leasehold interest in the Copperstone Project, which is in the development stage. The landlord is The Patch Living Trust. The current lease expires June 12, 2026. The lease is renewable for one or more ten-year terms at the Company's option under the same terms and conditions. The Company is obligated to pay for all permitting and state lease bonding, insurance, taxes, and is also required to pay an annual lease payment of US\$40,000 to the Patch Living Trust. In addition, the Company is obligated to pay a quarterly production gross royalty equal to 1.5% of the disposition of Metal Products by the Company. The current total annual production gross royalty obligations for the Copperstone Mine total 3%. Of the annual gross production royalty, 1.5% is payable to Trans Oceanic Mineral Company Ltd. ("TOMCL"), a company controlled by Fahad Al Tamimi, a Director of the Company and 1.5% payable to the Patch Living Trust. During the period ended September 30, 2023, the Company bought back a 3% Royalty held by TOMCL for US\$2,500,000 (note 19).

On November 12, 2020, the Company entered into a US\$18 million precious metals delivery and purchase agreement (the "Purchase Agreement") with Star Royalties to finance the restart of underground operations and gold production at the Copperstone Mine in Arizona. As at June 30, 2023, the Company had received the first two tranches amounting to \$16,239,600 (US\$12 million). On June 26, 2023 both parties agreed to a stream reduction notice, thus, the final tranche of US\$6 million will no longer be forthcoming.

As of December 1, 2020 the Company has commenced capitalizing the related expenditures. Amounts capitalized in the period include drilling services expenses, direct labour costs incurred and other expenses deemed to be recovered in future.

All required property payments were made with respect to the Copperstone Project as of September 30, 2023 and all claims are in good standing. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements. The Company's ability to retain the rights to certain of its properties is dependent upon the Company continuing to make option payments and meet other commitments.

(b) Marg, Yukon

On November 11, 2021, the Company closed the sale of its 100% interest in the Marg property ("Property Purchase Agreement") with Azarga. The sale consideration included a cash advance of \$50,000 as a non-refundable deposit, 5,219,985 common shares of Azarga valued at \$208,799 based on the market price of \$0.04 per share on the transaction closing date, cash receivable of \$200,000 on the one-year anniversary date of closing and cash receivable of \$350,000 on the two-year anniversary date of the closing (note 5). Sabre Gold will be entitled to a 1% NSR royalty of all metals extracted from the Marg Project. Azarga will have the option to buy

back 100% of the NSR for cash consideration of \$1,500,000.

(c) Three Aces, Yukon

On May 26, 2020 the Company sold a 100% interest in the Three Aces Project to Seabridge Gold, the agreement provided for additional payments to Sabre Gold of \$1 million upon confirmation of a Three Aces NI-43-101 compliant mineral resource of 2.5 million ounces of gold and a further \$1.25 million upon confirmation of an aggregate mineral resource of 5 million ounces of gold. The agreement also grants Sabre Gold a 0.5% net smelter royalty on the project.

(d) Ser Project, Yukon

On October 12, 2022 Sabre Gold entered into an option agreement to sell a 100% interest in the SER project to Rackla Metals Inc, the terms of the deal include an initial payment of \$50,000 in cash plus in twelve months' time a further payment of \$150,000 in cash and the issuance of \$150,000 worth of common shares of Rackla Metals Inc. Upon exercise of the option, Sabre Gold is entitled to a 2.5% NSR royalty on the SER project (note 24).

9. Lease liability

On October 12, 2021, the Company entered into a forty-eight month lease agreement for mobile equipment. The total lease payments of \$25,347 have been discounted at the implicit interest rate of 7% and resulted in a present value of \$22,052. Under the lease agreement, the Company is required to pay a quarterly payment of US\$424.

On June 1, 2022, the Company entered into a twenty-four month lease agreement for office space. The total lease payments of \$218,743 have been discounted at the implicit interest rate of 12% and resulted in a present value of \$193,618.

10. Deferred revenue

On November 12, 2020, the Company entered into a US\$18 million precious metals delivery and purchase agreement (the “Purchase Agreement”) with Star Royalties to finance the restart of underground operations and gold production at the Copperstone Mine in Arizona. The Company has received the first two tranches amounting to \$16,239,600 (US\$12 million). On June 26, 2023 both parties agreed to a stream reduction notice, thus, the final tranche of US\$6 million will no longer be forthcoming.

The Company recorded the advances received on precious metals delivery as deferred revenue and will recognize the amounts in revenue as performance obligations to metals delivery are satisfied over the term of the Purchase Agreement. The advances received on precious metals delivery is expected to reduce to nil through deliveries of the Company’s own production to Star Royalties.

The Company identified significant financing components related to its streaming arrangements resulting from a difference in the timing of the up-front consideration received and delivery of the promised goods and recognized the interest expenses at the incremental interest rate of 10% (2021 – 10%). During 2022 the Company updated the initial estimates related to the precious metal delivery schedule, which was used for the initial recognition of deferred revenue.

The promissory note with principal of \$3,609,763 is payable to Braydon Capital Corporation “Braydon”, a company controlled by Claudio Ciavarella, a Director and Shareholder of the Company. The promissory note bore an interest rate of 8% beginning in September 2017 and had a maturity date of August 22, 2020.

In November 2019, the maturity date was extended to January 20, 2021 and then again to August 22, 2021. In November 2020, the maturity date was extended to December 31, 2023. The rate of interest payable on the principal of the notes was increased from 8% to 10% as of November 12, 2020, with interest payable quarterly starting upon the commencement of commercial production.

In March 2023, the maturity date was extended to June 30, 2025. See note 24.

12. Convertible promissory notes payable

Kerr Debenture I

The Company has a convertible promissory note in the amount of US\$2,054,570 (“Kerr Debenture I”) payable to TOMCL. The Kerr Debenture I had a maturity date of August 22, 2019 and an annual interest rate of 8% compounded monthly. The holder has the right to convert any part of the amount owing into common shares of the Company at a conversion price of \$9.00 per common share.

Kerr Debenture II

The Company has a convertible promissory note in the amount of US\$1,000,000 (“Kerr Debenture II”) payable to TOMCL. The Kerr Debenture II had a maturity date of August 22, 2019 and an annual interest rate of 8%, compounded monthly. The holder has the right to convert any part of the amount owing into common shares of the Company at a conversion price of \$0.65 per common share.

Kerr Debenture I and II

Since the convertible promissory note payables are denominated in US dollars but are convertible into common shares based upon a Canadian dollar conversion rate, therefore the fixed for fixed criteria is not met. As such, the conversion feature was classified as a derivative financial liability instead of an equity instrument. The Company has separated the convertible promissory notes payable into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In November 2018, the Kerr Debenture I and II convertible promissory notes were amended by extending the maturity date from August 22, 2019 to August 22, 2020. As a result, the Company extinguished these two convertible promissory notes when they were amended on November 28, 2018 and treated them as two new convertible promissory notes with a maturity date of August 22, 2020. The Company calculated the fair value of the conversion feature and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In March 2020, the Kerr Debenture I and II convertible promissory notes maturity date were extended to January 20, 2021 and then again to August 22, 2021. As a result, the Company treated them as two new convertible promissory notes with a new maturity date of August 22, 2021. The Company calculated the fair value of the conversion features and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In November 2020, the Kerr Debenture I and II convertible promissory notes maturity date was extended to December 31, 2023. The rate of interest payable upon the principal of the notes has been increased from 8% to 10% as of November 12, 2020 with the interest payable quarterly starting on the commencement of commercial production. The Company calculated the fair value of the conversion features and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In March 2023, the Kerr Debenture I and II convertible promissory notes were amended by extending the maturity date from December 31, 2023 to June 30, 2025. As a result, the Company extinguished these two convertible promissory notes when they were amended and treated them as two new convertible promissory notes. The Company calculated the fair value of the conversion feature and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value (note 13).

Promissory Convertible Note

Braydon and TOMCL each provided promissory notes of \$1,000,000 to the Company, bearing interest at 8% beginning in September 2017 and having a maturity date of August 22, 2020. The notes are secured by a general security agreement on the Copperstone Mine. In November, the maturity date was extended to January 20, 2021 and then again to August 22, 2021. In November 2020, the maturity date was extended to December 31, 2023. The rate of interest payable on the principal of the notes has been increased from 8% to 10% as of November 12, 2020, with interest payable quarterly starting upon the commencement of commercial production. The promissory notes were also amended to include a conversion feature providing that the principal amount of the notes can be converted into common shares of Sabre Gold at any time prior to maturity at a price of \$1.60 per share, subject to early conversion in the event the volume-weighted average trading price of the common shares exceeds \$3.00 for twenty consecutive trading days.

The conversion feature of a convertible financial instrument is presumed to be classified as a derivative financial liability unless it meets all the criteria to be recognized as an equity instrument under IAS 32 - Financial Instruments: Presentation. One of the criteria is that the conversion option exchanges a fixed amount of shares for a fixed amount of cash ("fixed for fixed").

The conversion feature of the \$2,000,000 promissory notes was classified as equity since it met the fixed for fixed criteria. The Company used the residual value method to allocate the principal amount between the liability and equity components. The Company calculated the fair value of the debt component as \$1,823,805 using discount rate of 15%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The remaining value of \$176,194, deducted the deferred tax liability of \$46,691, was assigned to the equity component.

In March 2023 the principle amount was repaid in cash and the accrued interest was converted into shares at a deemed value of \$0.30 per share (Notes 15(b) and 19). See note 24.

14. Decommissioning liabilities

The Company's decommissioning liability relates to the cost of removing and restoration of the Copperstone Mine in La Paz County, Arizona. Significant reclamation and closure activities include land rehabilitation, demolition of buildings and mine facilities, ongoing care and maintenance and other costs. This estimate depends on the development of environmentally acceptable mine closure plans.

A continuity for asset retirement obligations is as follows:

Balance, December 31, 2021	\$ 2,221,965
Accretion expense for the year	74,578
Foreign exchange differences	154,657
Changes in estimates	(3,976)
Balance, December 31, 2022	2,447,224

Foreign exchange differences	(4,336)
Change in estimates	(79,510)
Balance, September 30, 2023	\$ 2,442,888

Copperstone:

The mine closure provision liability is based upon numerous estimates and assumptions, as follows:

- Total undiscounted amount of future retirement costs was estimated to be \$3,211,721 to which the Company has provided cash collateral as disclosed in note 3.
- Risk-free rate at 3.96% (December 31, 2021: 1.27%).
- Expected timing of cash outflows required to settle the obligation is for the full amount to be paid in 2029 (December 31, 2021: 2027).
- Inflation over the period up to 2029 was estimated to be 2.06% per annum (December 31, 2021: 1.82%).

15. Share capital

a) Authorized share capital.

The authorized share capital consists of an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

On November 9, 2022, the Company effected a consolidation of its capital on the basis of ten (10) existing common shares for one (1) new common share. All shares, options, warrants, and per share amounts were adjusted to reflect the consolidation ratio.

b) Common shares issued

	Number of common shares	Amount

Shares issued to settle debt	717,037	96,800
Balance, September 30, 2023	72,243,136	\$ 178,110,679

- (i) On January 24, 2023, the Company closed a private placement, by issuing 4,166,237 units of the Company (the "Units") at a price of \$0.17 per Unit for total gross proceeds of \$708,260. Each unit is comprised of one common share and one common share purchase warrant. Each warrant entitles the holder thereof to acquire a common share at a price of \$0.30 per share for a period of 24 months from the date of issuance, provided, that if, at any time the common shares trade at a volume weighted average trading price of \$0.45, or greater, per share for a period of 20 consecutive trading days. The Company may accelerate the expiry date of the warrants by giving notice to the holders thereof and in such case the warrants will expire on the 30th

day after the date on which such notice is given by the Company. The fair value of the 2,083,119 share purchase warrants was estimated at \$170,140 using the Black-Scholes pricing model with the following assumptions: dividend yield 0%; risk free interest 3.64%; volatility 120.83% and an expected life of 24 months. In connection with the private placement, the Company incurred legal and other cost of \$31,516.

- (ii) The company repaid interest on the redeemed promissory notes by issuing shares at a deemed value of \$0.30 each.

16. Share-based payments reserve

The purpose of the Company's stock option plan is to provide incentives to Directors, Officers, employees and consultants of the Company. The maximum number of common shares reserved for issuance upon exercise of the options is 10% of issued and outstanding shares. The Board of Directors may designate the recipients of options and determine the number of common shares covered by each option, its exercise price (which may not be less than closing market price of the common shares on the trading day prior to the grant) and its expiry date. The term of the options shall not exceed five years from the date of grant.

Option pricing models require the input of highly subjective assumptions as noted above. Changes in the subjective input assumptions can materially affect the fair value estimate.

The following table reflects the continuity of stock options for the nine months ended September 30, 2023 and the year ended December 31, 2022:

	Number of Stock options	Weighted average exercise price
Balance, December 31, 2021	3,961,300	\$ 1.32

- (i) On April 3, 2023, the Company issued 1,875,000 stock options to directors and employees of the Company with an exercise price of \$0.180. One third of the options vested immediately, a further third will vest on April 3, 2024 and the final third will vest on April 3, 2025. The fair value of these options at the date of grant of \$132,380 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of \$0.180; 100.87% expected volatility; risk free interest rate of 2.94%; and an expected dividend yield of 0%.

- (ii) On April 3, 2023, the Company issued 250,000 stock options to an officer of the Company with an exercise price of \$0.180. One quarter of the options vested immediately, a further quarter will vest on October 3, 2023, a further quarter will vest on April 3, 2024 and the final quarter will vest on October 3, 2024. The fair value of these options at the date of grant of \$132,380 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of \$0.180; 100.87% expected volatility; risk free interest rate of 2.94%; and an expected dividend yield of 0%.

During the nine months ended September 30, 2023, \$111,042 was expensed to share based payments (nine months ended September 30, 2022 - \$nil) and \$61,511 was capitalized as mineral properties (nine months ended September 30, 2022 - \$57,800).

c) Deferred share units (“DSU’s”)

The Company has a DSU plan for non-executive directors and employees of the Company. Under the terms of the plan, each vested DSU awarded entitles the DSU holder to receive, subject to adjustment as provided for in the DSU plan, one common share in the Company. Shares eligible for issuance under the DSU plan will be subject to the total DSU’s granted not exceeding, when aggregated with all other security-based compensation arrangements of the Company, 10% of the issued shares of the Company.

For the purposes of the DSU plan, the value of the DSU on the grant date is the market price, being the five-day volume weighted average price of the common shares immediately preceding the grant date.

Balance, December 31, 2022	-
Granted	130,000
Balance, September 30, 2023	130,000

During the nine months ended September 30, 2023, \$16,733 was expensed to share based payments (nine months ended September 30, 2022 - \$nil) and \$6,667 was capitalized as mineral properties (nine months ended September 30, 2022 - \$nil).

d) Restricted share units (“RSU’s”)

The Company has an RSU plan for non-executive directors and employees of the Company. Under the terms of the plan, each vested RSU awarded entitles the RSU holder to receive, subject to adjustment as provided for in the RSU plan, one common share in the Company. The RSU’s are considered equity settled. RSU’s will vest over a period of up to three years from the date of grant. Shares eligible for issuance under the RSU plan will be subject to the total RSU’s granted not exceeding, when aggregated with all other security-based compensation arrangements of the Company, 10% of the issued shares of the Company.

RSUs are measured at fair value on the date of grant based on the five-day volume weighted average price at the common shares immediately preceding the grant date and are recognized as share-based compensation expense on a straight-line basis over the vesting period. The corresponding amount is recorded to the share-based payment reserve. Upon the exercise of RSUs, the related share-based payment reserve is transferred to share capital.

24. Subsequent events

Subsequent to the period end, Rackla Metals Inc has exercised its option to acquire a 100% interest, subject to a 2.5% NSR royalty, in the SER property by paying \$150,000 in cash and issuing 655,021 common shares.

The shares issued to the Company are subject to a resale restriction which expires on February 17, 2024.

Subsequent to the period end, the Company has restructured its current debt obligations and the gold stream over the Copperstone Mine with its secured creditors. The Company's two lenders have forgiven an aggregate \$3 million in accrued interest on their promissory notes in return for an initial cash payment totalling \$3.95 million and deferred payments against principle and interest of \$1.8 million and \$1.2 million in 12 and 24 months, respectively.

In addition, the Company and its streaming partner, Star Royalties, have amended the gold streaming agreement relating to the Copperstone Mine to fix the gold entitlement at 4% of the payable gold ounces produced for the life of mine. The agreement previously provided for an initial gold entitlement percentage of 6.6% that stepped down to 2.2% and 0.8% after cumulative gold deliveries of 14,000 and 18,133 ounces, respectively.

As consideration for the amendment to the stream, the Company has issued 7,407,407 common shares to Star Royalties and paid Star Royalties \$1.55 million in cash and will make deferred payments of \$1.2 million and \$0.8 million in 12 and 24 months, respectively.

The common shares issued in connection with the restructuring are subject to a statutory hold period of four months and one day.
