Notes to the Condensed Consolidated Financial Statements

Three and Nine Months Ended September 30, 2022 and 2021

(Expressed in Canadian Dollars) - Unaudited

1. Nature of operations and going concern

Sabre Gold Mines Corp. (formerly "Arizona Gold Corp."), ("Sabre Gold" or the "Company") is incorporated under the laws of Canada. The principal business activities are directed towards exploring and developing the Copperstone Mine ("Copperstone") in La Paz County, Arizona, United States and the Brewery Creek Project ("Brewery Creek") in the Yukon, Canada. To date, the Company has not earned significant revenue as all properties are pre-production. On December 17, 2020, the Company changed its name from Kerr Mines Inc. to Arizona Gold Corp.

On September 2, 2021, the Company merged with Golden Predator Mining Corp. ("Golden Predator") by exchanging all of the outstanding common shares of Golden Predator for common shares of Sabre Gold on the basis of 1.65 common shares of Sabre Gold per one common share of Golden Predator. On September 8, 2021, the Company changed its name to Sabre Gold Mines Corp. The Company is listed on the Toronto Stock Exchange, trading under the symbol SGLD. The Company's corporate office and principal place of business is located at 200 Burrard Street, Suite 250, Vancouver, British Columbia, V6C 3L6, Canada.

As at September 30, 2022, the Company had negative working capital of \$(478,851), (December 31, 2021 - \$6,640,761). The Company has incurred losses in previous periods and has not yet achieved profitable operations, with a current loss of \$7,617,538 for the nine months ended September 30, 2022 (Nine months to September 30, 2021 - loss of \$3,465,812) and expects to incur future losses in the development of its business and requires additional financing to continue to be able to operate, retain rights to its properties and carry out exploration and development of its properties, all of which casts significant doubt about the Company's ability to continue as a going concern.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

These consolidated financial statements have been prepared on a going-concern basis and do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and consolidated statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material. While the Company expects to be able to obtain sufficient financing to continue as a going concern, it is not possible to predict whether financing efforts will be successful.

As at September 30, 2022, the Company is an emerging North American gold producer advancing the restart of production at its 100-per-cent owned, fully permitted past-producing Copperstone Mine, located in mining-friendly Arizona and the 100-per-cent owned, past-producing Brewery Creek Project in the Yukon, Canada. The Company's current focus is on maximizing the Copperstone Mine's potential by defining and expanding current resources and further optimizing the mine's economics for the purpose of the restart of production.

2. Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS's issued and outstanding as of November 8, 2022, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the period ended December 31, 2021, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the period ending December 31, 2021 could result in restatement of these unaudited condensed interim consolidated financial statements.

Change of year-end

During the six months ended December 31, 2021 the Company approved a change of its year end from June 30th to December 31st. The Company's transition period is the six months ended December 31, 2021. The comparative periods are the three and nine months ended September 30, 2021.

New and revised standards and interpretations

The following accounting standards and amendments are effective for future periods.

Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments to IAS 37 specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

These amendments are effective for reporting periods beginning on or after January 1, 2022.

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date.

These amendments are effective for reporting periods beginning on or after January 1, 2023.

The Company is engaged in exploring and developing the Copperstone Gold Mine in La Paz County, Arizona, United States and the Brewery Creek property in the Yukon, Canada.

(a) Copperstone Gold Mine, Arizona

The Company holds a 100% leasehold interest in the Copperstone Project. The landlord is The Patch Living Trust. The current lease expires June 12, 2026. The lease is renewable for one or more ten-year terms at the Company's option under the same terms and conditions. The Company is obligated to pay for all permitting and state lease bonding, insurance, taxes, and is also required to pay an annual lease payment of US\$40,000 to the Patch Living Trust. In addition, the Company is obligated to pay a quarterly production gross royalty equal to 1.5% of the disposition of Metal Products by the Company. Total annual production gross royalty obligations for the Copperstone Mine total 6%. Of the annual gross production royalty, 4.5% is payable to Trans Oceanic Mineral Company Ltd. ("TOMCL"), a company controlled by Fahad Al Tamimi, a Director of the Company and 1.5% payable to the Patch Living Trust. During the year ended June 30, 2021, the Company entered into an agreement to acquire a 3% royalty from TOMCL, which will reduce the aggregate Royalty on the Copperstone Mine from 6% to 3%. The purchase agreement entered into between the Company's subsidiary, Bonanza Explorations Inc. ("Bonanza"), and TOMCL provides for the buyback of a 3% Royalty held by TOMCL for US\$2,500,000 which expired January 31, 2022. The Company and TOMCL are currently in discussion regarding a further extension and amendments (note 22).

On November 12, 2020, the Company entered into a US\$18 million precious metals delivery and purchase agreement (the "Purchase Agreement") with Star Royalties to finance the restart of underground operations and gold production at the Copperstone Mine in Arizona. As at December 31, 2021, the Company had received the first two tranches amounting to \$16,448,400 (US\$12 million). The remaining tranche of US\$6 million will be advanced subject to certain closing conditions inclusive of the acquiring the 3% gross production royalty (note 10) from TOMCL and ensuring sufficient capital to complete the restart of production in accordance with the updated development and mine plan.

As of December 1, 2020 the Company has commenced capitalizing the related expenditures. Amounts capitalized in the period includes drilling services expenses, direct labour costs incurred and other expenses deemed to be recovered in future.

All required property payments were made with respect to the Copperstone Project as of September 30, 2022 and all claims are in good standing. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements. The Company's ability to retain the rights to certain of its properties is dependent upon the Company continuing to make option payments and meet other commitments.

(b) Brewery Creek, Yukon

The Company owns 100% of the Brewery Creek Project, subject to the following royalties:

- 2% NSR royalty to Wheaton Precious Metals Corp. on the first 600,000 ounces of gold produced, increasing to 2.75% thereafter. The Company can purchase 0.625% of the increased NSR royalty for \$2,000,000;
- 5% net profits interest ("NPI") over a portion of the property; and
- 2.5% NPI to the Tr'ondek Hwech'in First Nation ("THFN") on areas outside the existing mining permits (part of an Amended and Restated Socio and Economic Accord between the Company and THFN).

(c) Marg, Yukon

On November 11, 2021, the Company closed the sale of its 100% interest in the Marg property ("Property Purchase Agreement") with Azarga. The sale consideration included a cash advance of \$50,000 as a non-refundable deposit, 5,219,985 common shares of Azarga valued at \$208,799 based on the market price of \$0.04 per share on the transaction closing date, cash receivable of \$200,000 on the one-year anniversary date of closing and cash receivable of \$350,000 on the two-year anniversary date of the closing (note 4). Sabre Gold will be entitled to a 1% NSR royalty of all metals extracted from the Marg Project. Azarga will have the option to buy back 100% of the NSR for cash consideration of \$1,500,000.

(d) Gold Dome, Yukon

The Company owns a 100% interest in the Gold Dome property, consisting of multiple intrusion-related gold targets over 170 km² land package.

(e) Grew Creek, Yukon

The Company owns a 100% interest in the Grew Creek property, subject to a 4% NSR royalty. An annual \$25,000 advance royalty is payable on the property.

(f) Kerr-Addison Royalty, Ontario

The Company owns a 1% NSR in the Kerr-Addison property owned by Gold Candle Ltd, who have the right to buy back half of the royalty for a payment of \$500,000 in cash (note 22).

(g) Three Aces, Yukon

On May 26, 2020 the Company sold a 100% interest in the Three Aces Project to Seabridge Gold, the agreement provided for additional payments to Sabre Gold of \$1 million upon confirmation of a Three Aces NI-43-101 compliant mineral resource of 2.5 million ounces of gold and a further \$1.25 million upon confirmation of an aggregate mineral resource of 5 million ounces of gold. The agreement also grants Sabre Gold a 0.5% net smelter royalty on the project.

(h) Ser Project, Yukon

The Company owns a 100% interest in the 376-claim SER gold project located in the Yukon (note 22).

10. Deferred revenue

On November 12, 2020, the Company entered into a US\$18 million precious metals delivery and purchase agreement (the "Purchase Agreement") with Star Royalties to finance the restart of underground operations and gold production at the Copperstone Mine in Arizona. As at September 30, 2022, the Company had received the first two tranches amounting to \$16,448,400 (US\$12 million). The remaining tranche of US\$6 million will be advanced subject to certain closing conditions inclusive of the acquiring the 3% gross production royalty from TOMCL and ensuring sufficient capital to complete the restart of production in accordance with the updated development and mine plan.

The Company recorded the advances received on precious metals delivery as deferred revenue and will recognize the amounts in revenue as performance obligations to metals delivery are satisfied over the term of the Purchase Agreement. The advances received on precious metals delivery is expected to reduce to nil through deliveries of the Company's own production to Star Royalties. The Company determined the amortization of deferred revenue on a per unit basis to be equal to the expected total deliveries of gold ounces over the term of the Purchase Agreement.

The Company identified significant financing components related to its streaming arrangements resulting from a difference in the timing of the up-front consideration received and delivery of the promised goods and recognized the interest expenses at the incremental interest rate. An interest expense of \$1,334,931 was recorded during the nine months ended September 30, 2022 (nine months ended September 30, 2021 - \$755,132).

The following are components of deferred revenue as at September 30, 2022:

Advance received	\$ 16,448,400
Accrued interest	3,094,541
Total	\$ 19,542,941

The promissory note with principal of \$3,609,763 is payable to Braydon Capital Corporation "Braydon", a company controlled by Claudio Ciavarella, a Director and Shareholder of the Company. The promissory note bears an interest rate of 8% beginning in September 2017 and has a maturity date of August 22, 2020. In November 2019, the maturity date was extended to January 20, 2021 and then again to August 22, 2021. In November 2020, the maturity date was extended again to December 31, 2023. The rate of interest payable on the principal of the notes has been increased from 8% to 10% as of November 12, 2020, with interest payable quarterly starting upon the commencement of commercial production.

12. Convertible promissory notes payable

Kerr Debenture I

The Company has a convertible promissory note in the amount of US\$2,054,570 ("Kerr Debenture I") payable to TOMCL. The Kerr Debenture I had a maturity date of August 22, 2019 and an annual interest rate of 8% compounded monthly. The holder has the right to convert any part of the amount owing into common shares of the Company at a conversion price of \$0.90 per common share.

Kerr Debenture II

The Company has a convertible promissory note in the amount of US\$1,000,000 ("Kerr Debenture II") payable to TOMCL. The Kerr Debenture II had a maturity date of August 22, 2019 and an annual interest rate of 8%, compounded monthly. The holder has the right to convert any part of the amount owing into common shares of the Company at a conversion price of \$0.065 per common share.

Kerr Debenture I and II

Since the convertible promissory note payables are denominated in US dollars but are convertible into common shares based upon a Canadian dollar conversion rate, therefore the fixed for fixed criteria is not met. As such, the conversion feature was classified as a derivative financial liability instead of an equity instrument. The Company has separated the convertible promissory notes payable into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In November 2018, the Kerr Debenture I and II convertible promissory notes were amended by extending the maturity date from August 22, 2019 to August 22, 2020. As a result, the Company extinguished these two convertible promissory notes when they were amended on November 28, 2018 and treated them as two new convertible promissory notes with a maturity date of August 22, 2020. The Company calculated the fair value of the conversion feature and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In March 2020, the Kerr Debenture I and II convertible promissory notes maturity date were extended to January 20, 2021 and then again to August 22, 2021. As a result, the Company treated them as two new convertible promissory notes with a new maturity date of August 22, 2021. The Company calculated the fair value of the conversion features and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value.

In November 2020, the Kerr Debenture I and II convertible promissory notes maturity date was extended to December 31, 2023. The rate of interest payable upon the principal of the notes has been increased from 8% to 10% as of November 12, 2020 with the interest payable quarterly starting on the commencement of commercial production. The Company calculated the fair value of the conversion features and re-allocated the convertible promissory note payables into two components, with the debentures carried at amortized cost, and the derivative liabilities carried at fair value (note 22).

Promissory Convertible Note

Braydon and TOMCL each provided promissory notes of \$1,000,000 to the Company, bearing interest at 8% beginning in September 2017 and having a maturity date of August 22, 2020. The notes are secured by a general security agreement on the Copperstone Mine. In November, the maturity date was extended to January 20, 2021 and then again to August 22, 2021. In November 2020, the maturity date was extended to December 31, 2023. The rate of interest payable on the principal of the notes has been increased from 8% to 10% as of November 12, 2020, with interest payable quarterly starting upon the commencement of commercial production. The promissory notes were also amended to include a conversion feature providing that the principal amount of the notes can be converted into common shares of Sabre Gold at any time prior to maturity at a price of \$0.16 per share, subject to early conversion in the event the volume-weighted average trading price of the common shares exceeds \$0.30 for twenty consecutive trading days (note 22).

The conversion feature of a convertible financial instrument is presumed to be classified as a derivative financial liability unless it meets all the criteria to be recognized as an equity instrument under IAS 32 - Financial Instruments: Presentation. One of the criteria is that the conversion option exchanges a fixed amount of shares for a fixed amount of cash ("fixed for fixed").

The conversion feature of the \$2,000,000 promissory notes was classified as equity since it met the fixed for fixed criteria. The Company used the residual value method to allocate the principal amount between the liability and equity components. The Company calculated the fair value of the debt component as \$1,823,805 using discount rate of 15%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The remaining value of \$176,194, deducted the deferred tax liability of \$46,691, was assigned to the equity component.

The following table summarizes the debt component:

14. Decommissioning liabilities

The Company's decommissioning liability relates to the cost of removing and restoration of the Copperstone Mine in La Paz County, Arizona. Significant reclamation and closure activities include land rehabilitation, demolition of buildings and mine facilities, ongoing care and maintenance and other costs. This estimate depends on the development of environmentally acceptable mine closure plans.

A continuity for asset retirement obligations is as follows:

Balance, June 30, 2021	\$ 2,190,294
Accretion expense for the year	55,723
Foreign exchange differences	50,076
Adjustment	(74,128)
Balance, December 31, 2021	2,221,965
Accretion expense for the period	118,310
Foreign exchange differences	159,997
Adjustment	(376,578)
Balance, September 30, 2022	\$ 2,123,694

Copperstone:

The mine closure provision liability is based upon numerous estimates and assumptions, as follows:

- Total undiscounted amount of future retirement costs was estimated to be \$2,036,723 (US\$1,630,261) to which the Company has provided cash collateral as disclosed in (note 3).
- Risk-free rate at 2.37%.
- Expected timing of cash outflows required to settle the obligation is for the full amount to be paid in 2027.
- Inflation over the period up to 2027 was estimated to be 2.38% per annum.

15. Share capital

- a) Authorized share capital.

The authorized share capital consists of an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid (note 22).

- b) Common shares issued

	Number of common shares	Amount
Balance, June 30, 2021	346,062,553	\$ 149,125,159

16. Share-based payments reserve

The purpose of the Company's stock option plan is to provide incentives to Directors, Officers, employees and consultants of the Company. The maximum number of common shares reserved for issuance upon exercise of the options is 10% of issued and outstanding shares. The Board of Directors may designate the recipients of options and determine the number of common shares covered by each option, its exercise price (which may not be less than closing market price of the common shares on the trading day prior to the grant) and its expiry date. The term of the options shall not exceed five years from the date of grant.

Option pricing models require the input of highly subjective assumptions as noted above. Changes in the subjective input assumptions can materially affect the fair value estimate.

The following table reflects the continuity of stock options for the nine months ended September 30, 2022 and 2021:

	Number of Stock options	Weighted Average Exercise price

- (i) On January 4, 2021, the Company issued 500,000 stock options to an Officer of the Company with an exercise price of \$0.140. Half the options vested immediately and the second half will vest on June 30, 2021. The fair value of these options at the date of grant of \$56,000 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five year expected average life; share price of \$0.140; 114% expected volatility; risk free interest rate of 0.39%; and an expected dividend yield of 0%.
- (ii) On March 29, 2021, the Company issued 1,000,000 stock options to an Officer of the Company with an exercise price of \$0.140. The options vested immediately. The fair value of these options at the date of grant of \$81,138 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five-year expected average life; share price of \$0.140; 91.29% expected volatility; risk free interest rate of 0.97%; and an expected dividend yield of 0%.
- (iii) On May 1, 2022, the Company issued 1,000,000 stock options to an Officer of the Company with an exercise price of \$0.100. The options vested immediately. The fair value of these options at the date of grant of \$57,800 was assigned to the stock options as estimated by using the Black-Scholes option pricing model with the following assumptions: a five-year expected average life; share price of \$0.100; 93.71% expected volatility; risk free interest rate of 2.81%; and an expected dividend yield of 0%.
- (iv) During the nine months ended September 30, 2022, 9,200,500 options were cancelled and \$831,773 was transferred from Share based payments reserve to other reserve.

During the nine months ended September 30, 2022, \$nil was expensed to share based payments (nine months ended September 30, 2021 - \$28,000) and \$57,800 was capitalized as mineral properties (nine months ended September 30, 2021 - \$109,138).
